Sub: A Proposal on "Setting up of Common Facility Centre (CFC) in IJIRA premises for utilization of Unutilized Decanni Wool and Low Grade Jute"-reg.

Sir,

This is reference to above stated subject.

I am hereby forwarding our application for setting up of Common Facility Centre value addition of unutilized Decanni Wool and low grade jute fibre. The products will be utilized by the horticultural farmers to enhance their income as well as of the shepherds of especially Maharashtra, Andhra Pradesh and Karnataka region. Utilization of such biodegradable agro mulch by horticultural farmers will reduce the uses of plastic mulch and help various state governments to implement ban on plastic more effectively. Such step will also help India to adhere to the declaration of CoP26.

I look forward to hearing from you.

With warm regards,

Yours Sincerely

Amit Sharma
